Education

Stony Brook University — *B.S. in Computer Science*
Expected Graduation: December 2026
Dean's List: Fall 2023, Spring 2025
Relevant Coursework: Computer Security Fundamentals, Web Security, Systems Administration, Systems Fundamentals, Technical Communications

---

Technical skills

- **Infrastructure & Admin:** Windows, Linux, VMware, PowerShell, Remote Desktop, Active Directory
- **Networking & Security:** TCP/IP, DNS, Fortinet firewalls, System hardening
- **Programming:** Java, C, Python

Experience

Elite Computer Systems | *IT Infrastructure Extern* | July 2025 – August 2025

- Delivered on-site technical support and diagnosed networking issues across VMware and Windows environments.
- Configured Fortinet firewalls and managed Active Directory user accounts to strengthen client infrastructure.
- Performed preventative system updates to minimize downtime and ensure reliable client-facing operations.

Costco Wholesale | *Cashier* | November 2023 - Present

- Raised $2,589 for Cohen's Children's Hospital during a corporate campaign, consistently ranking in the top 3 among part-time cashiers for donation collections.
- Managed high-volume transactions and delivered efficient, professional customer service in a fast-paced retail environment.

Projects

Secure Web Server Infrastructure - *Academic Project*

- Configured a Linux virtual machine and deployed a LAMP stack (Apache, MySQL, PHP) to host a WordPress Content Management System.
- Hardened system security by enforcing SSH public key authentication , implementing fail2ban to mitigate brute-force attacks , and generating self-signed SSL certificates for secure HTTPS access.
- Automated system administration tasks by writing Cron jobs for daily web server and database backups, and configured Exim4 to send automated SMTP email notifications for system events.
- Utilized SSH port forwarding to securely tunnel into restricted network resources and securely managed administrative privileges using Visudo.
